

Faculty Development Workshop Series

“A Research Intensive Undergraduate Course: Trials, Tribulations and Practice”

Dr. Tim Cooper

Associate Professor

Department of Biology and Biochemistry

This workshop will cover approaches to developing an undergraduate course that combines theory and practical research, the overall aim of which is to teach critical thinking skills. Topics include testing to assess levels of established skills, class exercises and practical organization of small research projects.

Friday, February 26, 2016

306 MD Anderson Library

Noon - 1 pm

Lunch will be provided.
