

STUDENT ORGANIZATION OUTREACH OPPORTUNITY

Join us as we welcome girls from all across the Houston area at the first Girls Engineering the Future Day sponsored by Chevron. The event will take place in both engineering buildings and all student organizations are encouraged to take part. Each organization will be assigned their own classroom and provided funding to showcase an activity of their choosing. If you do not already have an activity, we will provide you with one. Each activity will need to be manned by volunteers from the sponsoring organization. Organizations are welcome to showcase more than one activity as long as they can provide the volunteers. We will finalize details for the event at the next Cougar Paw meeting on 2 March 2016.

STUDENT ORGANIZATION: _____

CONTACT NAME: _____ **CONTACT EMAIL:** _____

NAME OF ACTIVITY: _____
