

PLANNED OUTAGE NOTIFICATION No.13

After completing this form, please send to facomm@central.uh.edu for processing.

Informational Messages

OUTAGE PURPOSE: This time period will be utilized to dig the pit for the installation of Manhole PMH-5 at the ERP campus. After the manhole is installed and backfilled up to the bottom of the paving, the surrounding area will be steel plated in preparation of upcoming ductbank tie-ins. This will allow complete usage of the streets after the outage.

IMPACT MESSAGE: We will install concrete traffic barriers on all four sides of the pits to prohibit vehicles entering the pit. The pit location should allow vehicles to travel on the existing roads but might restrict traffic to one lane adjacent the pit.
