

3D Optical Metrology Workshop

Houston, TX

March 16, 2017 at the University of Houston

Trilion Quality Systems

www.Trilion.com

The 3D Optical Metrology Workshop is the perfect event for those interested in increasing design and production efficiency for the oil & gas, aerospace, automotive, microelectronics, industries and beyond, with advanced measurements of 3D shape, deformation and strain.

Please join us for an afternoon of presentations by industry experts who will provide real world case studies about the implementation of these systems, as well as equipment demonstrations that highlight the advanced capabilities of this technology. There will be **opportunities to discuss your applications and solutions**, to **win trivia prizes** and even to enter the **raffle** drawing!

Lunch is included and there is **no cost to attend**, so [register now](#) to reserve your place. Space is limited!
