

AIG AT A GLANCE

TECHNOLOGY AT AIG

AIG's vision is to be the world's most valued insurance provider and technology is at the heart of that goal. AIG Global Services is the team that provides world class

technology infrastructure products and services to 70,000+ employees globally, 24 hours a day, 365 days of the year.

TCAP OVERVIEW

World-Class Development

AIG Global Services and Business Leaders have developed TCAP to expose participants to **highly relevant and world class developmental opportunities**.

You will solve complex problems, work with highly-motivated professionals from around the world, and see the direct **impact of your work** on AIG and beyond.

Career Acceleration

Working alongside AIG Global Services Leaders will provide experiences that position you for future success at AIG Global Services and AIG.

Combination of **business and technical rotations, and formal training** provide you with the knowledge to **accelerate your career**.

Support throughout the **IT Certification** process.
